

CloudShare for **Training**

Keep Your Audience On Their Toes

Create Game-Changing Training Experiences That Stick

When it comes to digital experiences, perfection is the expectation. CloudShare provides the industry's most engaging user experiences for software training. Next-generation collaborative features provide an immersive and interactive experience for your trainees. The all-in-one unified experience of the CloudShare platform lets you create ideal learning environments in minutes and facilitate best-in-class performance on-demand, anywhere in the world.

Spin Up Real-World Training Environments in Minutes!

Let trainers focus on teaching, rather than setting up environments. With CloudShare, users can spin up flawless collaborative training environments that mimic their trainees' real-world networks, in minutes – anywhere, in any cloud, at any time. What's more, it's fully scalable, and environments can be deleted without hurting production.

Improve User Engagement

A feature-rich user interface including native video conferencing tools, over-the-shoulder view, live chat, and more, gives instructors and students full control over training, leading to more valuable interactions. Boost trainee retention and successful learning with our best-in-class collaborative feature set.

Customize to Meet Your Business Needs

There's no need to adapt for us. We can meet all your requirements. CloudShare offers a rich integration stack with leading LMS and other popular software. You can use CloudShare's powerful cloud resources, or any of the 3 major public clouds (AWS, Azure, and GCP). But there's no need to be chained to one vendor. Create hybrid environments with multiple clouds.

Gain Visibility into Training Performance

Monitor all environments from one centralized dashboard to stay on top of all training activity. Granular analytics provide actionable insights on environment usage, class-to-class performance, and costs per class, boosting your training program's ROI.

Reduce Costs with Our Flexible Pricing

Simple, transparent Pay-As-You-Go or Annual Subscription pricing models, let you control costs to suit your budget and program seasonality. Advanced features with Smart Inactivity Detection and automated environment suspend/ resume functionality gives you the ultimate control over cost.

What is CloudShare?

CloudShare is the most powerful solution for hands-on software experiences; from sales demos and POCs, to customer and employee training, certification, and sandboxing.

Our virtual environments are completely customizable and allow the end-user to experiment with your software in a safe environment that mimics their own, thus enabling the most effective experiences.

CloudShare's Business Acceleration platform enables some of the world's top brands to accelerate their entire customer journey anywhere, in any cloud, anytime.* We're proud to serve leading global software companies such as Palo Alto Networks, RSA, Motorola, Atlassian, SAI Global, Atos, ForgeRock, Dell, Salesforce, and many more.
